Chenyu (Cheryl) Wang, BSN, BA, MPH

cywangg@umich.edu | 314-861-7046
400 NIB, Ann Arbor, MI 48105
ORCID: 0009-0000-0993-3630

EDUCATION

University of Michigan at Ann Arbor — *Ann Arbor, MI*
Ph.D.in Nursing — Anticipated 2029

Washington University in St. Louis — *St. Louis, MO*
MPH, Epidemiology and Biostatistics — Aug 2024
Artificial Intelligence and Big Data Analytics for Public Health (AIBDA) Certificate — Aug 2024

Peking University — *Beijing, China*
B.S. Nursing — Jun 2022
B.A. Theory and History of Arts — Jun 2022

RESEARCH INTEREST

- Maternal health, with a focus on sleep monitoring and risks of pregnancy outcomes
- Digital health, including data analysis and machine learning
- The integration of machine learning in nursing/ physiology/ public health for behavior analysis and intervention
- Health disparities and the application of evidence-based interventions in diverse populations

AWARDS AND SCHOLARSHIPS

PhD Conference Travel Award — $1,500, June 2026
Brown School Scholarship — $10,000, 2022-2024

AFFILLIATIONS/SERVICE

Awards Committee Member, Sigma Theta Tau International Honor Society of Nursing — 2026 - Present
Member, American Academy of Sleep Medicine — 2026 - Present

LEADERSHIP AND SERVICE

Volunteer in the Community for Counteracting COVID-19 — May - Jun 2020

Advised by Dr. Sanli Jin, Peking University, School of Nursing *Beijing, China*
Role: Leader

- Led volunteer recruitment through school social media to support COVID-19 response efforts in local communities
- Conducted online needs-assessment surveys to identify communities requiring greater public health support
- Designed and distributed COVID-19 educational materials to targeted community members

TEACHING

Teaching Assistant for WashU AI Advanced Learning Certificate Program Aug 2024 - Dec 2024
Professor: Dr. Ruopeng An, WashU *St. Louis, Mo*

- Provided timely explanations and suggestions to students' questions regarding Python programming
- Graded assignments and gave feedback

RESEARCH PROJECTS

Obstetric Initiative Patient Voice: Data Analysis Mar 2026- Present
Dr. Lisa Kane Low, University of Michigan *Ann Arbor, MI*
Research Assistant

- Led analysis of MADM scores to evaluate their association with cesarean delivery rates
-

Virtual Hospital Project – Simulated EHR Oct 2025- Present
Dr. Ivo Dinov, University of Michigan *Ann Arbor, MI*
Research Assistant

- Tested simulated EHR data with existing LLMs and identify simulation problems

Two Pregnancy Cohort Studies: Sleep Quality & Chronotype in Relation to Pregnancy Outcomes Aug 2023- Present
Dr. Siobhan Sutcliffe; Dr. Sarah England, WashU Medicine *St. Louis, Mo*
Research Assistant

- Cleaned raw data, recoded time-dependent variables, and conducted Cox regression analyses in SAS to study associations between self-reported sleep characteristics and risks of **preterm birth** and **preeclampsia**.
- Presented results and proposed actionable next steps during weekly and monthly team meetings.
- Contributed to manuscript development by finalizing data analysis methods and summarizing key findings.
- Enhanced SAS programming skills through self-directed learning to support data processing and model testing.

Systematic Review and Meta-analysis of Tailored Prostate Cancer Screening Feb 2023- Aug 2025
Dr. Siobhan Sutcliffe, WashU Medicine *St. Louis, Mo*
Research Assistant

- Systematically reviewed the literature on PSA screening outcomes utilizing the Covidence platform
- Extracted data from included article, meticulously organizing and recording details in Excel

Systematic Reviews on Artificial Intelligence Applications Jan 2024- Aug 2025
Dr. Ruopeng An, WashU Brown School *St. Louis, Mo*
Research Assistant

- Conducted systematic reviews on various AI applications, including loneliness mitigation among elderly individuals, promotion of physical activity, and public policy impacts on obesity.
- Screened, extracted, and analyzed data from included studies, collaborating with team members to ensure methodological rigor.
- Co-authored manuscripts for publication, contributing to literature reviews, result synthesis, and drafting.
- Assisted in data extraction for the project "ChatGPT Comes to Campus," analyzing themes in AI policies across U.S. universities.

Association Between Hormonal Contraceptive Use and Free Estradiol Serum Levels Jun 2023- Apr 2024

Dr. Siobhan Sutcliffe, WashU Medicine *St. Louis, Mo*

Research Assistant

- Systematic Review: Reviewed the literature on measured free estrogen among contraceptive users and revised manuscript
- NHANES Data Analysis: Checked and modified codes in SAS and presented final result

Research Intern on Global Health May - Dec 2021

Advised by Dr. Kun Tang, Tsinghua University, Vanke School of Public Health *Beijing, China*

- Assisted in making the graduate program introduction slides
- Proofread three chapters of the Chinese translation of *A Guide To Global Health Diplomacy* published by the Global Health Center 2021
- Participated in the neonatal safety project, which was jointly carried out by China CDC

Cohort Study: Effects of Dietary Nutrition on Maternal and Child Health Jan 2021- May 2021

Research Project led by Dr. Wenli Zhu, Peking University, Department of Public Health *Beijing, China*

Research Assistant

- Recruited pregnant women as participants at hospital by introducing the study aim and process
- recorded baseline and follow-up data and assisted with blood collection
- Conducted centrifugation and separation of blood components, and prepared aliquots for storage and shipment

Needs Assessment of Patients for Ongoing Care Following Hip or Knee Arthroplasty Nov 2021 - May 2022

Advised by Dr. Mingming Yu, Peking University, School of Nursing *Beijing, China*

- Reviewed literature in geriatric care and reached out for authorization of needs assessment scale (questionnaire)
- Adapted and administered questionnaires to 100 post-operative knee or hip arthroplasty patients prior to their discharge from the hospital
- Performed descriptive statistics and multiple linear regression analysis on SPSS, identifying significant relationships and trends

Systematic Review of the Systematic Reviews of the Intervention Effect of Music Therapy Apr 2019 - Sept 2020

PI, advised by Dr. Zhiwen Wang, Peking University, School of Nursing *Beijing, China*

- Brainstormed with people with similar interest to identify the research topic and method
- Communicated with advisor and seniors and received systematic methodological guidance
- Performed literature retrieval, sorting, management and extraction
- Conducted methodological quality assessment for the systematic review according to JBI

PROFESSIONAL SKILLS

- Data Analyzing: SAS; R; Python; SPSS; SQL; Tableau
- Language: English, Mandarin

CERTIFICATIONS

- Certification in Public Health (CPH) - National Board of Public Health Examiners (NBPHE)
